5 June 1962

Dear  25X1A

As per our telecon of 5 June, enclosed are the  
photos of the proposed  Control Box. I  
have seen the new panel at "H" and to me it looked  
very good, much simplified and less bulky. You  
will note they have combined both standby and oper-  
ate functions into one switch. If you need additional  
information to put out the service bulletins, we can  
have Det. H send in a copy of their prototype or you  
can request it from them direct if you wish. We  
would like this on all Articles. Many thanks.

25X1A

Sincerely,

25X1A
